This is an introduction to HTML.

Now I am going to make an ordered list followed by an unordered list!

1. First item in the list
2. Second item in the list
3. Third item in the list

- First item in the list
- Second item in the list
- Third item in the list

It looks like you haven't started Firefox in a while. Do you want to clean it up for a fresh, like-new experience? And by the way, welcome back!

SMART INK

This is an introduction to HTML.

Now I am going to make an ordered list followed by an unordered list!

If you want to copy an image and save it, you can right click and select Save Image As (using Firefox). You can change the name when you save it.

1. First item in the list
2. Second item in the list
3. Third item in the list

- First item in the list
- Second item in the list
- Third item in the list

It looks like you haven't started Firefox in a while. Do you want to clean it up for a fresh, like-new experience? And by the way, welcome back!

Remember that to see the code you wrote, right click and view source. I used Firefox to make my examples.
A member of the last class found this article interesting:
Improve your time management
Assignments:
All assignments must be turned in using the email addresses that I sent you.
Assignments are due the Thursday of the week after they are assigned. So assignments for this week are due next Thursday, September 14th.
There is also an Assignment Summary (look under Weekly Schedule in the menu on the left).
We will be looking at soft skills later in the semester and as a foundation for that, I want you to take this survey:
Survey
Send me an email letting me know you have taken it.
Your assignment for this week:
HTML page to introduce yourself (needs to include CSS)
I should clarify that you should use a lot of the HTML in the examples so you should use things like lists, tables, images, CSS etc to get the best grade. If you use extra HTML that you research and use to create the page you need to explain the commands for extra credit.
Also extra credit for having more than one page and linking them.
You need to pass in this assignment during the first week of classes. Email me if you have questions!

Send e-mail to Priscilla Grocer (if you have or are taking a course, use the email you were given for the class):
Priscilla.Grocer@bristolcc.edu
